Birthday Celebrations at Cherrington

As we start the 2020-2021 school year, Cherrington Elementary School is taking an active role in promoting, supporting, and modeling healthy eating habits for our students as well as the ever-growing number of students with various food allergies.

We will not allow students to distribute edible treats for these events. Instead, we have identified other celebration options.

Below are our school's approved choices for alternatives to food treats:

- Distributed small tokens such as stickers, birthday pencils, or pencil toppers to the class.
- Provide an autograph book or tee shirt for your child that classmates can sign.
- Donate a book to your child's classroom or to our school library's *Birthday Book Club*. You may want to contact your child's teacher for book suggestions.
- Donate an indoor recess game to your child's classroom.

We appreciate your partnership as we implement our school practices. **Please note that any food-item sent to school will NOT be opened or distributed and will be returned home with the child.**

We will continue to have school wide celebrations such as the Fall Party, Winter Party and Valentine Party, at which we will continue to share nutritious snacks and will allow classrooms to share some treats while being sensitive to food allergies.

Children embrace being recognized by their peers and teachers for special occasions and our practices will ensure the focus of our celebrations are on the student and not the edible treat. We invite our Cherrington school community to join us in our efforts to promote lifelong, healthy, and nutritional habits in our students.

Should you have further questions, please feel free to contact the school office.

Sincerely,
Andrew Heck, Principal

PARKING/TRAFFIC FLOW:

Bus riders will be dismissed by line at the primary playground doors to busses.

Walkers and car riders will be dismissed from the main entrance and car riders will be picked up along the curb in front of the school.

Please use the CHERRINGTON PICK-UP signs in your front car window to help facilitate the pick-up process.

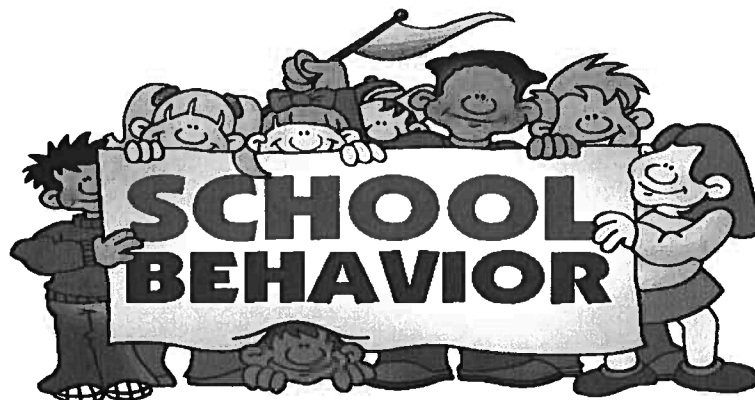

Cherrington Elementary School students will focus on the following 5 Positive Behavior Expectations:

The Cherrington Choice

I choose to respect myself and others by:
Following Adult Directions
Speaking Appropriately
Keeping Hands, Feet and Objects to Myself
Walking Quietly in the Building
Being Prepared to Learn

The Cherrington Choice outlines our school expectations. These expectations are recited on the announcements each morning.

Mr. Heck, the teachers, support staff, and parents will continually review these rules with the students and provide consistent support and modeling.

School Mission Statement

Our school mission is to teach students the academic, social, and thinking skills necessary to become citizens who accept challenges, take responsibility for personal choices, and value themselves and others in a diverse world.

School Behavior Plan Vision

At Cherrington Elementary School, we strive to maximize learning by providing an atmosphere that is safe, nurturing, and positive for all students. It is our goal for students to take responsibility in creating a climate that is conducive to academic excellence and civic awareness.

High Expectations for Students

When given high expectations for behavior and provided with the direct instruction and continued reinforcement of positive behavior along with clear and fair consequences for inappropriate behavior, all students can and will learn to behave appropriately at school.
