Vision

Our vision is to be the benchmark of educational excellence.

December 22, 2021

Mission

Our mission is to prepare students to contribute to the competitive and changing world in which we live. As the Superintendent and the Treasurer of the Westerville City School District (the District), we are pleased to submit to you the Annual Comprehensive Financial Report for the year ended June 30, 2021. The Annual Comprehensive Financial Report is prepared by the

To the Board of Education and Residents of the Westerville City School District:

Treasurer and in accordance with accounting principles generally accepted in the United States of America (GAAP) and in conformance with standards of financial reporting established by the Governmental Accounting Standards Board (GASB) using guidelines recommended by the Government Finance Officers Association of the United States and Canada (GFOA). Management is responsible for the contents of this report, and we believe the data presented is complete and accurate in all material respects.

In addition, this report is designed so that a reader can acquire the maximum understanding of the District's financial activity. This report is provided as a way for the District to communicate openly about the District's finances with its stakeholders.

Values

Respect
Inclusiveness
Community
Communication
Collaboration
Innovation
Nurturing
Trust

Accountability

Management is also required to prepare a narrative introduction and overview of the financial statements in the form of Management's Discussion and Analysis, which can be found on page 15. This letter of transmittal is designed and should be read in conjunction with that analysis. Comments on the report are welcome and requests for additional financial information can be obtained by contacting the Office of the Treasurer.

This report will be posted on the District's website. A copy will be sent to financial rating services, and any other interested parties.

REPORTING ENTITY

The District is an independent political subdivision of the State of Ohio and operates subject to the provisions of the Ohio Constitution and various sections of the Ohio Revised Code. Under such laws, there is no authority for the District to have a charter or adopt local laws. The District is not a part of, nor under the control of, the City of Westerville. The territory of the District is considerably larger than the territory of the City of Westerville.

LETTER OF TRANSMITTAL FOR THE FISCAL YEAR ENDED JUNE 30, 2021

The Westerville City School District (the District) is located in Central Ohio, immediately northeast of the City of Columbus. Encompassing 52 square miles, the District includes land in the City of Westerville, Village of Minerva Park, City of Columbus, Franklin County, and Delaware County. Westerville is a growing residential suburb with a school district enrollment of 14,637, and the District's estimated population is 100,148 (2020 Census). The District is currently comprised of 23 schools: 1 preschool, 15 elementary schools, four middle schools, and three high schools. The District is culturally and economically diverse, and its residents are well educated and expect a high quality education for their children. Many residents are area leaders in business, the professions, and the arts. Westerville is the home of Otterbein University, a 4-year liberal arts institution.

The District provides a vast range of educational and support services as mandated by State statute and the desires of the community, which include but are not limited to, regular, special needs, and vocational educational programs, guidance and support services, extracurricular activities, food service activities, and various community programs.

The accompanying basic financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, and Statement No. 39, *Determining Whether Certain Organizations are Component Units*, and Statement No. 61, *The Financial Reporting Entity: Omnibus on Amendment of GASB Statements No. 14 and 34* in that the basic financial statements include all organizations, activities and functions for which the District is financially accountable. Financial accountability is defined as the appointment of a voting majority of a component unit's board and either (i) the District's ability to impose its will over a component unit, or (ii) the possibility that the component unit will provide a financial benefit or impose a financial burden on the District. On that basis, the reporting entity of the District includes the services of the District only (i.e. there are no component units).

ORGANIZATION OF THE DISTRICT / PROFILE OF THE GOVERNMENT

The Board of Education of the Westerville City School District (the Board) is a five-member body politic and corporate, as defined by Section 3313.02, Ohio Revised Code. The Board serves as the taxing authority, contracting body, policy maker, and ensures that all other general laws of the State of Ohio are followed in the expenditure of the District's tax dollars, and approves the annual appropriation resolution and tax budget.

Board members are elected at large for staggered four-year terms. The Board meets regularly on the second and fourth Monday of each month. At the first meeting of each year, the Board elects one of its members as president and one as vice-president to serve as such for one year. The Board members on June 30, 2021, were as follows:

Board Member	Service as a l	Service as a Board Member			
	Began	Expires			
Rev. Rick Vilardo	01/01/18	12/31/21	Member		
Rev. Vaughn Bell	01/01/20	12/31/23	President		
Tracy Davidson	01/01/18	12/31/21	Member		
Dr. Nancy Nestor-Baker	01/01/18	12/31/21	Vice President		
Jennifer Aultman	01/01/20	12/31/23	Member		

LETTER OF TRANSMITTAL FOR THE FISCAL YEAR ENDED JUNE 30, 2021

The Superintendent of Schools is the Chief Executive and Administrative Officer for the Westerville Board of Education. On July 1, 2013, John Kellogg, Ed.D. was appointed Superintendent. Dr. Kellogg, in this capacity, directs and supervises the work of all the schools, offices, and employees of the Board, except the Treasurer and the Treasurer's staff. Dr. Kellogg is in his 37th year of service to public education having served in the roles of teacher, administrator and Chief Executive Officer.

The Treasurer is the chief financial officer (CFO) of the District and is responsible directly to the Board for maintaining all financial records, issuing all payments, maintaining custody of all District funds and assets, and investing idle funds as specified by Ohio Law. Nicole Marshall was appointed as Treasurer/CFO on July 1, 2018. Mrs. Marshall has been in the government finance profession for 17 years.

ECONOMIC DEVELOPMENT AND OUTLOOK

The City of Westerville is located in the northeast quadrant of Ohio's fastest growing metropolitan area and is a vital city of 37,000 residents within 11.5 square miles that abut the City of Columbus, Ohio's capital. The City has immediate access to I-71 and I-270. Settled in 1806, Westerville's historic legacy serves as a constant backdrop to its steady residential and corporate growth. New and existing businesses enjoy the character of the cobblestone streets in Uptown Westerville and a business climate poised for the 21st century.

Employment in Westerville has seen a slight increase with unemployment in June of 2020 of approximately 5.6% decreasing to 4.8% as of June 2021 as the economy begins to recover from of job losses due to the COVID-19 pandemic. Employment in the District is diversified with a majority in the finance and insurance sector.

The District has an excellent relationship with the City of Westerville, which assures that development projects selected by the City are also highly desirable for the District. When the City of Westerville uses an incentive to attract a business, it primarily uses Community Reinvestment Areas (CRAs) or Tax Increment Financing (TIF) areas. In either case, the District is reimbursed for a portion of property taxes it would have collected through an agreement with the City of Westerville. The District and City maintain a strong working relationship to attract desirable development to the community.

EMPLOYEE RELATIONS

The District currently has approximately 2,000 full-time and part-time employees. Four organizations represent District employees. In the opinion of District officials, labor relations are good.

LETTER OF TRANSMITTAL FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Certified Staff

The teaching or certified staff is represented by the Westerville Education Association (WEA), which is affiliated with the Ohio Education Association (OEA) and the National Education Association (NEA). The Board has bargained with the WEA since September 1, 1997. The Board and the WEA had a three-year agreement effective September 1, 2018 through August 31, 2021. The agreement provided a 2.6% raise effective for fiscal year 2019 through 2021. The Board and the WEA signed a new three year agreement in June 2021, effective August 1, 2021 through July 31, 2024. This agreement also provides a 2.6% raise for each year of the agreement.

Classified Staff

Classified employees are represented by three unions: bus drivers and mechanics are represented by the Ohio Association of Public School Employees (OAPSE) #719, the custodial, maintenance and food service staff are represented by OAPSE #138, and the clerical staff is represented by Westerville Educational Support Staff Association (WESSA). In July of 2018, all three unions approved new three year agreements effective July 1, 2018 through June 30, 2021. The OAPSE #719 and #138 agreement also includes a one year extension through June 30, 2022. The agreements provide a 2.6% raise and a \$300 lump payment in January for each year of the contract. The Board and the WEESA signed a new three year agreement in June 2021, effective July 1, 2021 through June 30, 2024. This agreement also provides a 2.6% raise for each year of the agreement and a \$450 lump payment in January 2022, a \$350 lump sum payment in January 2023 and a \$300 lump sum payment in January 2024.

FINANCIAL INFORMATION

The District's accounting system is organized on a "fund" basis. Each fund is a distinct, self-balancing entity. Records are maintained during the fiscal year on a budgetary basis system of accounting as prescribed by State statute. Cash basis accounting differs from generally accepted accounting principles (GAAP) as promulgated by the Governmental Accounting Standards Board (GASB).

Internal Controls

The management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of "reasonable assurance" recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefits requires estimates and judgments by management. Management believes the internal controls adequately meet the above objectives.

LETTER OF TRANSMITTAL FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Budgetary Controls

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control required by Ohio Revised Code is at the fund level. The level of budgetary control imposed by the District (the level at which expenditures cannot legally exceed the appropriated amount) is established at the fund level for all funds. Any budgetary modifications at these levels may only be made by resolution of the Board of Education. The District maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Unencumbered appropriation balances are verified prior to the release of purchase orders to ensure funds are available to meet the obligation created by the purchase order. Encumbered amounts at year-end are carried forward to succeeding fiscal years and are not re-appropriated.

Financial Planning and Policies

As required by Ohio Revised Code, the District adopts a five-year financial forecast annually to ensure long term financial success. It serves as a planning tool to certify if funds are available for future expenditures and to strategize when the District will need to return to voters for additional funds or to reduce expenditures accordingly. The most recent forecast, approved in November 2021, shows a positive available fund balance through 2026.

AWARDS AND ACKNOWLEDGEMENTS

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada awarded the Certificate of Achievement for Excellence in Financial Reporting to the Westerville City School District for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2020. The Certificate of Achievement is the highest form of recognition for excellence in state and local government financial reporting.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report, whose contents conform to program standards. The report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current Annual Comprehensive Financial Report continues to meet the high standards required by the Certificate of Achievement program, and we are submitting it to GFOA to determine its eligibility for a certificate.

Independent Audit

State statutes require a bi-annual audit by independent auditor's unless a single audit is required. Julian & Grube, Inc. conducted the District's 2021 fiscal year audit. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Uniform Guidance. The auditor's report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of this report.

LETTER OF TRANSMITTAL FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Acknowledgments

The preparation and publication of this Annual Comprehensive Financial Report on a timely basis would not have been possible without the cooperation of the entire Treasurer's Department.

Also, this report would not have been possible without the continued support of the Westerville Board of Education who values quality financial information with which to help make decisions. Without their leadership and commitment to excellence, this would not be possible.

Kellogg Nicole Marchall

Sincerely,

John R. Kellogg, Ed.D Superintendent/CEO Nicole Marshall Treasurer/CFO

Independent Auditor's Report

Westerville City School District Franklin County 936 Eastwind Drive Westerville, Ohio 43081

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Westerville City School District, Franklin County, Ohio, as of and for the fiscal year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Westerville City School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Westerville City School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Westerville City School District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Westerville City School District Franklin County Independent Auditor's Report Page 2

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Westerville City School District, Franklin County, Ohio, as of June 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof and the budgetary comparison for the general fund for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 22 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the Westerville City School District. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and schedules of net pension and other post-employment benefit assets and liabilities and pension and other post-employment benefit contributions listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Westerville City School District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Westerville City School District Franklin County Independent Auditor's Report Page 3

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated December 22, 2021, on our consideration of the Westerville City School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Westerville City School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Westerville City School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

The management of the Westerville City School District (the District) offers the readers of the District's Annual Comprehensive Financial Report this narrative overview and analysis of the financial activities for the year ended June 30, 2021. The District encourages readers to consider the information presented here in conjunction with additional information that has been furnished in the letter of transmittal, notes to the basic financial statements and the financial statements to enhance their understanding of the District's financial performance.

FINANCIAL HIGHLIGHTS

The District's net position increased by \$55.8 million or 125.7%. Program revenues accounted for \$30.2 million or 10.7% of total revenues, and general revenues accounted for \$252.2 million or 89.3%.

The general fund reported a positive fund balance of \$174.4 million.

USING THIS ANNUAL COMPREHENSIVE FINANCIAL REPORT

This annual comprehensive financial report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the Westerville City School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's major funds with all other non-major funds presented in total in one column. The major fund for the Westerville City School District is the general fund. The District has also selected to present the debt service fund, the permanent improvement fund and the building fund as major funds.

REPORTING THE DISTRICT AS A WHOLE

Statement of Net Position and Statement of Activities

While this document contains a large number of funds utilized by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the questions, "How did the District perform financially in 2021?" The Statement of Net Position and the Statement of Activities help to answer this question. These statements include all assets plus deferred outflows of resources and liabilities plus deferred inflows of resources using the accrual basis of accounting, which is similar to the accounting used by private sector corporations. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's net position and change in net position. This change in net position is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The reader must also consider other non-financial factors such as the District's property tax base, current property tax laws, student enrollment growth, facility conditions and other factors in arriving at their conclusion regarding the overall health of the District.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

In the Statement of Net Position and the Statement of Activities, all of the District's activities are reported as governmental including instruction, support services, operation and maintenance of plant, student transportation and extracurricular activities.

REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

Our analysis of the District's major funds begins on page 23. The fund financial statements begin on page 29 and provide detailed information about the most significant funds – not the District as a whole. Some funds are required to be established by State statute, while many other funds are established by the District to help manage money for particular purposes and compliance with various grant provisions. The District's three types of funds, governmental, proprietary and fiduciary use different accounting approaches as further described in the notes to the basic financial statements.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances remaining at year-end available for spending in future periods. These funds are reported utilizing an accounting method called modified accrual accounting, which measures cash and other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources available to spend in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds

Proprietary funds use the accrual basis of accounting, the same as on the entity-wide statements. The District uses an internal service fund to account for a self-insurance program and one for workers compensation insurance. The assets plus deferred outflows, liabilities plus deferred inflows, and net position of the internal service funds have been included within the governmental activities.

Fiduciary Funds

The District is the trustee, or fiduciary for various scholarship programs. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position on page 37-38. We exclude these activities from the District's other financial statements because the net position cannot be utilized by the District to finance its operations.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets plus deferred outflows were greater than liabilities plus deferred inflows by \$100.2 million at the close of the most recent fiscal year.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

A significant portion of the District's net position, \$96.9 million, reflects its investment in capital assets less any related debt used to acquire those assets that is still outstanding. The District uses capital assets to provide services; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the District's net position, \$32.6 million, represents resources subject to external restrictions on how they may be used.

Table 1 provides a comparative analysis of fiscal year 2021 to 2020.

	Governmental Activities				
	2021	2020			
Current assets	\$470,471,556	\$461,924,642

The net pension liability (NPL) is one of the largest single liabilities reported by the District at June 30, 2021 and is reported pursuant to GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27." In fiscal year 2018, the School District adopted GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions," which significantly revises accounting for costs and liabilities related to other postemployment benefits (OPEB). For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the District's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability* or *net OPEB liability*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability to equal the District's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
- 2. Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the District's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's change in net pension liability and net OPEB liability, respectively, not accounted for as deferred inflows/outflows.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

As a result of implementing GASB 75, the District is reporting a net OPEB liability and deferred inflows/outflows of resources related to OPEB on the accrual basis of accounting. Under GASB 75, OPEB expense represents additional amounts earned, adjusted by deferred inflows/outflows. GASB 45 required recognizing OPEB expense equal to the contractually required contributions to the plan. The contractually required contribution is no longer a component of OPEB expense.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Governmental Activities

The net position of the District's governmental activities increased by \$55.8 million. Net position reflects a positive balance of \$100.2 million. The District has developed a strategic plan to best utilize the resources available and to preserve those resources as long as possible. The financial outlook of the District is stable and our Five Year Forecast shows a positive ending cash balance through 2026. The District passed a levy in November 2019 that funds capital projects in the first five years of the Facilities Master Plan, improves districtwide safety and security and address deficit spending that is forecasted to begin in fiscal year 2023.

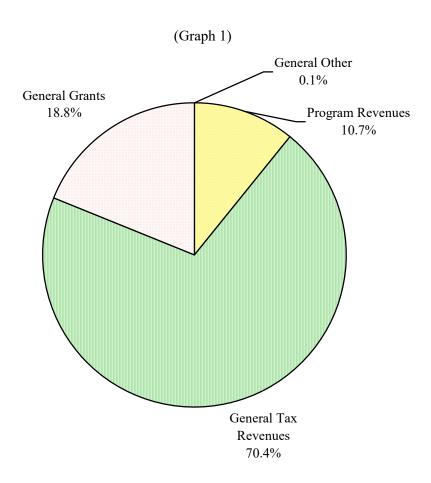

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. The table below reflects the cost of program services and the net cost of those services after taking into account the program revenues for the governmental activities. The net cost of program services must be supported by general revenues including tax revenue, investment earnings and unrestricted State entitlements.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

The District's reliance upon tax revenues is demonstrated by the graph below indicating 70.4% of total revenues from local taxes. The other large portion of general revenue support is the State Foundation program as 18.8% of total revenues. The reliance on general revenues is indicated by the net services column reflecting the need for \$196.4 million of support as well as the graph indicating general revenues comprise 89.3% of total revenues.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

The District's Funds

The District's governmental funds (as presented on the Balance Sheet on page 29) reported a combined fund balance of \$311.2 million, which represents an increase of \$31.7 million. The schedule below indicates the fund balance and the total change in fund balance as of June 30, 2021 and 2020.

(1	Га	h	le	41

	_	Fund Balance June 30, 2021		Fund Balance June 30, 2020		Increase

Other Governemental		31,223,630		32,997,132	_	(1,773,502)	
Total	\$	311,181,485	\$	279,498,844	\$	31,682,641	

General Fund

The District's general fund balance has increased in current year due to revenues that exceed expenditures. The COVID-19 pandemic had an impact on many revenue sources. The most significant was the timing of tax revenues. Franklin and Delaware Counties extended the deadline for paying second half real estate taxes from July 20th, 2020 to August 5th, 2020, and August 20, 2020, respectively. Therefore, tax revenues available as June 30th, 2020 decreased by \$36.7 million and deferred property taxes increased in the prior year. Deadlines returned to normal in July and August 2021 and as such tax revenues increased and deferred taxes decreased. The State of Ohio returned our support to pre-COVID levels in FY '21. The District did see a continued reduction of tuition and fees as families were not charged for days that students were remote learning. Building rentals also decreased as buildings were closed to outside organizations. The most significant decrease was the \$3 million decrease in interest as rates continued to fall.

The tables and graphs that follow assist in illustrating the financial activities and balance of the general fund.

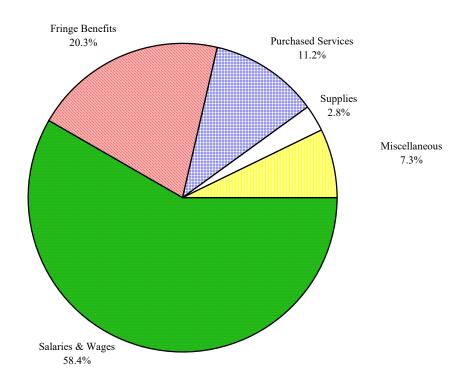

(Table 5)

	2021	2020	%Change
Revenues			
Taxes	\$ 166,681,630	\$ 79,066,910	110.81%
Payment in lieu of taxes	5,994,360	4,611,742	29.98%
Intergovernmental - state	60,610,913	58,343,449	3.89%
Other revenue	 2,511,723	 6,195,858	<u>-59.46%</u>
Total	\$ 235,798,626	\$ 148,217,959	<u>59.09%</u>

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

As the graph below illustrates, the largest portions of general fund expenditures is for salaries and fringe benefits. The District is a service entity and as such is labor intensive.

(Graph 2)

(Table 6)

Expenditures by Object	2021		2020		%Change
Salaries and Wages	\$	105,863,880	\$	103,954,759	1.84%
Fringe Benefits		36,881,732		37,531,230	-1.73%
Purchased Services		20,234,357		20,967,970	-3.50%
Supplies		5,074,004		4,501,951	12.71%
Miscellaneous		13,289,972		13,454,075	<u>-1.22%</u>
Total	<u>\$</u>	181,343,946	\$	180,409,985	<u>0.52%</u>

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Expenditures have increased \$900K over the prior year. Salaries and wages have increased \$1.9 million due to salary increases that average 4.5%. Fringe benefits decreased \$650K due to replacement staff selecting lower cost benefits. Supplies increased \$600K as the District was remote learning environment for a large portion of the school year as a result of State COVID-19 recommendations and more consumable instructional supplies were purchased for students at home.

Other Funds

The building fund had a fund balance of \$105.5 million. This is an \$20.1 million decrease. This fund was established in 2019 to account for the \$39 million in certificates of participation the District issued and also now accounts for the \$103 million bond levy that was passed in November 2019. The funds are for renovations at South High school and safety and security districtwide and the first five years of the Districts' Facilities Master Plan which include a new elementary and middle school. The fund will continue to decrease as projects are completed.

Nonmajor governmental funds consist of the debt service funds, permanent improvement fund and special revenue funds. The decrease in fund balance of \$1.8 million.

The District's debt service fund balance decreased by \$5.2 million as debt payments of the \$103 million bond levy passed in November 2019 began in the current year. The expenditures of the fund include debt principal and interest payments as well as county auditor and treasurer fees.

The permanent improvement fund had an increase in fund balance of \$5 million. The expenditures of the fund were for District facilities acquisition and construction costs and a transfer to the debt service fund to be used for debt repayment of the tax anticipation notes.

The revenues of both the debt service and permanent improvement funds are property taxes, calculated by the county auditor, and state homestead and rollback money computed as a percentage of the tax due to the fund. Both funds saw a significant increase in property tax revenues due to the timing differences in the collection of taxes as mentioned above in the general fund.

The special revenue funds had a decrease in fund balance of \$1.5 million primarily due to the decrease in the food service fund as all staff continued to be paid, but revenues decreased as the number of meals served decrease significantly as the school was in remote learning for a large portion of the year as a result of the COVID-19 pandemic.

General Fund Budget Information

The District's budget is prepared in accordance with Ohio law and is based on the cash basis of accounting, utilizing cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund. There were not any significant changes between the original budgeted revenues and the final budgeted revenues. The budget for unrestricted state revenue did increase \$3.5 million as the State of Ohio return funding to the pre COVID-19 pandemic amounts. Refund of prior year expenditures increased \$2.6 million due to two years of reimbursement from Medicaid received instead of one and a two rebates from the Bureau of Worker's Compensation that totaled \$2.6 million.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

On the expenditure side of the budget the District approved a Final Appropriations measure in September 2020 which included an estimated 100% of total expenditures for the General Fund. The decrease between original budgeted expenditures and final budgeted expenditures of \$8.4 million was primarily due to salaries and wages and benefits as result of new and replacement staff coming in under projections. Remote learning was the primary cause of the decrease in all other functions.

The District utilizes the five-year forecast as the original document from which to form the operating budget. After updating of the forecast for changes in revenue and expenditure assumptions the operating budget begins at the school level. Each school in the district receives a per pupil allocation. The departments then receive the remainder of funds to bring the budget into balance with the five-year forecast. The building and department budgets are reviewed periodically to ensure management becomes aware of any significant variations during the year.

Capital Assets

The District has \$175.4 million invested in capital assets net of depreciation. Acquisitions totaled \$26.4 million and depreciation was \$7.6 million. The acquisitions were for various land and building improvements, equipment and vehicles. Capital asset disposals, net of accumulated depreciation, were \$120K. The construction in progress relates to the \$37 million renovation that is being done at South High School through the issuance of certificates of participation and the \$103 million in bonds for the Facilities Master Plan that includes a new elementary and middle school as well as additions to several existing elementary schools.

For more detailed information regarding the District's capital assets, refer to Note 9 in the notes to the basic financial statements.

Debt

At June 30, 2021, the District had \$171.2 million in outstanding bonds and certificates of participation. The District paid \$18.8 million in principal on bonds outstanding and \$6.6 million in interest during the fiscal year.

Under current state statutes, the District's general obligation bonded debt issues are subject to a legal limitation based on 9% of the total assessed value of real and personal property. At June 30, 2021, the District's general obligation debt was below the legal limit.

For more detailed information regarding the District's debt, refer to Note 10 in the notes to the basic financial statements.

Requests for Information

This financial report is designed to provide a general overview of the Westerville City School District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Westerville City Schools, Office of the Treasurer, 936 Eastwind Drive, Westerville, Ohio, 43081.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Net change in fund balances - total governmental funds		\$	31,682,641
Amounts reported for governmental activities in the statement of activities are different because:			
Governmental funds report capital outlays as expenditures However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. Capital asset additions Current year depreciation Total	\$ 26,418,680 (7,589,267)	<u>1</u>	18,829,413
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, disposals, trade-ins, and donations) is to decrease net position.			(97,572)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.			
Property taxes Earnings on investments Intergovernmental Total	97,392 (59,745) 337,640) -	375,287
Repayment of bond, COPS, and capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities on the statement of net position.			18,865,233
In the statement of activities, interest is accrued on outstanding bonds whereas in governmental funds, an interest expenditure is reported when due. The following items resulted in additional interest being reported in the statement of activities: Decrease in accrued interest payable Amortization of bond premiums Amortization of deferred charges Total	 49,919 892,046 (428,301)	<u>.</u>	513,664
Contractually required contributions are reported as expenditures ir governmental funds; however, the statement of net position reports these amounts as deferred outflows. Pension OPEB Total	 16,566,409 412,432	_	16,978,841
Except for amounts reported as deferred inflows/outflows, changes in the net pension/OPEB liability/asset are reported as pension/OPEB expense in the statement of activities. Pension	(31,880,882))	10,978,641
OPEB Total	 544,781	=	(31,336,101)
Some expenses reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.			(741,612)
An internal service fund used by management to charge the costs of insurance to individual funds is not reported in the district-wide statement of activities. Governmental fund expenditures and the related internal service fund revenues			
are eliminated. The net revenue (expense) of the internal service fund is allocated among the governmental activities.			715,408
Change in net position of governmental activities		\$	55,785,202

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT

The Westerville City School District (the "District") was organized in the early 1850's and is a fiscally independent political subdivision of the State of Ohio. The District is a city district as defined by Section 3311.02 of the Ohio Revised Code. The District operates under a locally elected five-member board and is responsible for the provision of public education to residents of the District. The District encompasses 52 square miles and provides services to approximately 15,020 students.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District's significant accounting policies are described below.

A. Reporting Entity

The accompanying basic financial statements comply with GASB Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units" and GASB Statement No. 61, The Financial Reporting Entity: Omnibus on Amendment of GASB Statements No. 14 and 34". The reporting entity is composed of the primary government and component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's Governing Board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary governments financial statements incomplete or misleading. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government).

B. Fund Accounting

The District uses funds to report on its financial position and the results of its operations. A fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain school district activities or functions.

GOVERNMENTAL FUNDS

Governmental funds are those through which most governmental functions of the District are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets plus deferred outflows of resources and liabilities plus deferred inflows of resources is reported as fund balance.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The following are the District's major governmental funds:

<u>General Fund</u> - The general fund is used to account and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>Building fund</u> - The building fund is used to account for the receipts and expenditures related to special bond funds in the District. All proceeds from the sale of notes and bonds, except premium and accrued interest, are reported in this fund. Expenditures represent the costs of acquiring capital facilities including real property.

Other governmental funds of the District are used to account for (a) financial resources that are restricted, committed, or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets and (b) specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects and (c) financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

PROPRIETARY FUNDS

Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. The District has no enterprise funds.

Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the District on a cost reimbursement basis. Charges are intended only to recoup the total costs of such services. The following is a description of the District's internal service funds:

<u>Self Insurance Fund</u> -The Self Insurance Fund is used to account for monies received from other funds as payment for providing medical and dental employee benefits.

<u>Worker's Compensation Fund</u> - The Worker's Compensation Fund is used to account for monies received from other funds as payment for providing Worker's Compensation benefits to employees.

FIDUCIARY FUNDS

<u>Fiduciary Funds</u> - Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust fund, investment trust funds, private-purpose trust funds and custodial funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District's only fiduciary fund is a private-purpose trust which accounts for scholarship programs for students.

C. Basis of Presentation and Measurement Focus

The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

<u>Government-Wide Financial Statements</u> - The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal Service fund activity is eliminated to avoid overstatement of revenues and expenses. Interfund services provided and used are not eliminated in the process of consolidation.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The government-wide statements are prepared using the economic resources measurement focus. All assets plus deferred outflows of resources and liabilities plus deferred inflows of resources associated with the operation of the District are included on the statement of net position. This is the same approach used in the preparation of proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the governmental activities in the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the governmental activities of the District. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include amounts paid by the recipient of goods and services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

<u>Fund Financial Statements</u> - Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column, and all nonmajor funds are aggregated into one column. Internal Service funds are combined and the totals are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets plus deferred outflows of resources and current liabilities plus deferred inflows of resources generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in fund balance.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operations of these funds are included on the statement of net position. Proprietary fund's operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net position.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the District's Internal Service funds are charges for services. Operating expenses for internal service funds include the cost of services. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The private purpose trust fund is accounted for using a flow of economic resources measurement focus.

D. Basis of Accounting

The government-wide financial statements are reported using the *economic resources measurement focus* and *accrual basis of accounting*, as are the proprietary fund and private purpose trust fund of the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing related to cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and other similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Government fund financial statements are reported using the *current economic financial resources measurement focus* and *the modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available when they are collected within 60 days of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service principal expenditures, as well as expenditures related to compensated absences, pension liabilities, OPEB liabilities and claims and judgements, are recorded only when payment is due.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

<u>Deferred Outflows of Resources and Deferred Inflows of Resources</u> - In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, see Note 14 and Note 15 for deferred outflows of resources related to the District's net pension liability and net OPEB liability/asset, respectively. In addition, deferred outflows of resources include a deferred charge on debt refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, payments in lieu of taxes and unavailable revenue. Property taxes and payments in lieu of taxes represent amounts for which there is an enforceable legal claim as of June 30, 2021, but which were levied to finance fiscal year 2022 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the District unavailable revenue includes, but is not limited to, delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

For the District, see Notes 14 and 15 for deferred inflows of resources related to the District's net pension liability and net OPEB liability/asset, respectively. These deferred inflow of resources are only reported on the government-wide statement of net position.

E. Budgetary Data

The District is required by state statute to adopt an annual appropriated cash basis budget for all funds other than custodial funds. The specific timetable for the fiscal year 2021 was as follows:

- 1. Prior to January 15 of the preceding year, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The purpose of this budget document is to reflect the need for existing (or increased) tax rates.
- 2. By no later than January 20, the Board-adopted budget is filed with the Franklin County Budget Commission for a tax rate determination. The original budget revenue amounts reported in the budgetary statement for the General Fund reflects the amounts set forth in this tax budget.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

- 3. Prior to March 15, the Board of Education accepts by formal resolution, the tax rates as determined by the Budget Commission and receives the Commission's Certificate of Estimated Resources (the Certificate), which states the projected revenue for each fund. Prior to June 30, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate. On or about July 1, the Certificate is amended to include any unencumbered balances from the preceding year as reported by the District Treasurer. The Certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The final budget amounts reported in the budgetary statement reflect the amounts set forth in the final amended Certificate issued for fiscal year 2021.
- 4. By July 1, the annual appropriation resolution is legally enacted by the Board of Education at the fund level for all funds, which is the legal level of budgetary control. This appropriation then serves as a basis for the original budget expenditure amounts reported in the budgetary statements for all funds. State statute permits a temporary appropriation to be effective until no later than October 1 of each year. Resolution appropriations by fund must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals.
- 5. Any revisions that alter the total of any fund appropriations must be approved by the Board of Education.
- 6. Formal budgetary integration is employed as a management control device during the year for all funds consistent with the general obligation bond indenture and other statutory provisions. All funds completed the year within the amount of their legally authorized appropriation.
- 7. Appropriation amounts are as originally adopted, or as amended by the Board of Education through the year by supplemental appropriations which either reallocated, decreased or increased the originally appropriated amounts. All supplemental appropriations were legally adopted by the Board during fiscal year 2021.
- 8. Unencumbered appropriations lapse at year-end. Encumbered appropriations are carried forward to the succeeding fiscal year and need not be reappropriated. Expenditures plus encumbrances may not legally exceed budgeted appropriations at the fund level for all funds.
 - Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded in order to reserve that portion of the applicable appropriation, is employed in governmental funds.
- 9. The District prepares its budget on a basis of accounting that differs from GAAP. The actual results of operations are presented in the Statement of Revenues, Expenditures, and Changes in Fund Balances—Budget and Actual—General Fund in accordance with the budget basis of accounting. The major differences between the budgetary basis of accounting and GAAP are outlined.

Revenues are recorded Expenditures are recorded Encumbrances are recorded

Budget Basis when received in cash when paid in cash as the equivalent of an expenditure as an assignment or commitment

GAAP Basis when susceptible to accrual when the liability is incurred of the fund balance

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

F. Cash and Investments

To improve cash management, cash received by the District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Equivalents".

Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market rates. Nonparticipating investment contracts such as repurchase agreements and nonnegotiable certificates of deposit are reported at cost.

The State Treasury Asset Reserve of Ohio (STAR Ohio) is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB) Statement No. 79, "Certain External Investment Pools and Pool Participants."

STAR Ohio maintains a stable net asset value (NAV) per share by using the amortized cost method of portfolio valuation. For the fiscal year ended June 30, 2021, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given to Public Fund Administrators, the co-administrator for STAR Ohio, 24 hours in advance of all deposits and withdrawals exceeding \$100 million. STAR Ohio reserves the right to limit the transaction to \$250 million, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

Interim deposits are used by the District to purchase legal investments. The Ohio Revised Code authorizes the District to invest in United States and State of Ohio bonds, notes and other obligations: bank certificates of deposits; banker's acceptances; commercial paper notes rated prime and issued by United States corporations and STAR Ohio. During fiscal year 2021, investments were limited to federal agency securities, STAR Ohio, negotiable CDs, commercial paper, US Treasury Notes and U.S. Government money market accounts.

Under existing statutes, all investment earnings accrue to the General Fund except earnings specifically related to the Food Service, Building Fund, and the Permanent Improvement Fund. Interest credited to the General Fund during fiscal year 2021 was \$234,833 which includes \$48,828 assigned from other funds.

Restricted assets in the debt service fund represent cash equivalents for which use is limited by legal requirements. Restricted assets include matured bonds for which payment has not been requested.

G. Inventory

Inventories are presented at cost on a first-in, first-out basis and are expensed when used. Inventories are accounted for using the consumption method on the government-wide statements and the fund financial statements. Inventories consist of donated and purchased food held for resale and expendable supplies held for consumption.

H. Capital assets and Depreciation

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets are reported in the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for the cost of additions and retirements during the year. Donated capital assets are recorded at their acquisition value. The District's capital asset threshold is \$5,000. The District does not capitalize assets with a useful life of less than 2 years. The District does not maintain any infrastructure.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

All reported capital assets, with the exception of land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

	Governmental
	Activities
Description	Estimated Lives
Land improvements	20 years
Buildings and improvements	10 - 50 years
Furniture, fixtures and equipment	5 - 15 years
Vehicles	7 - 10 years

I. Interfund Transactions

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund loans receivable/payable". These amounts are eliminated in the governmental type activities columns of the statement net position.

J. Compensated Absences

The District follows GASB Statement No. 16, *Accounting for Compensated Absences*, which requires that a liability be accrued for sick leave if it is probable that the employee will be compensated through cash payment. Upon retirement, District employees are paid their accumulated balances up to a fixed number of days. This number is determined by negotiated agreements or board policy depending on the employee's classification.

The entire compensated absence liability is reported in the government-wide financial statements and is calculated using the vesting method. For governmental fund financial statements, the amount of accumulated vacation and sick leave of employees has been recorded as a current liability to the extent payments come due each period upon the occurrence of employee resignations or retirements. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have unaccumulated unpaid leave are paid. The balance of the liability is not recorded. For proprietary funds, the entire amount of compensated absences is recorded as an expense and liability of the fund.

K. Accrued Liabilities and Long-Term Debt

All accrued liabilities and long-term debt are reported in the entity-wide financial statements as well as the proprietary fund financial statements.

For governmental fund financial statements, the accrued liabilities are generally reported as a governmental fund liability if due for payment as of the balance sheet date regardless of whether they will be liquidated with current financial resources. However, claims and judgments, net pension liability, net OPEB liability, and compensated absences paid from governmental funds are reported as a liability in the fund financial statements only for the portion due for payment during the current year. Long-term debt paid from governmental funds is not recognized as a liability in the fund financial statements until due. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

L. Fund Balances

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

<u>Nonspendable</u> - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable in the general fund.

<u>Restricted</u> - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

<u>Committed</u> - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

<u>Assigned</u> - Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted nor committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by the fund balance policy of the District Board of Education, which includes giving the Treasurer the authority to constrain monies for intended purposes.

<u>Unassigned</u> - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

M. Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

N. Net Position

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows. The net position component "net investment in capital assets" consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The amount restricted for other purposes represents amounts restricted for trusts, other grants and also food service transactions.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

O. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

P. Issuance costs, Premiums and Accounting Gain or Loss on Debt Refunding

On the governmental fund financial statements, issuance costs, bond premiums, and deferred charges from debt refunding are recognized in the current period.

On the government-wide financial statements, issuance costs are recognized in the current period and are not amortized. Bond premiums are amortized over the term of the bonds using the straight-line method. Unamortized bond premiums are presented as an addition to the face amount of the bonds reported on the statement of net position. The reconciliation between the bonds face value and the amount reported on the statement of net position is presented in Note 10.

For advance refunding resulting in the defeasance of debt, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense. This accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as a deferred inflow or outflow of resources.

Q. Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability, net OPEB asset, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

R. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. For the fiscal year 2021, the District reported no extraordinary or special items.

S. Fair Value

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

T. Statement of Cash Flows

For purposes of the statement of cash flows, the proprietary funds consider all highly liquid investments, with a maturity of three months or less when purchased, to be cash equivalents. Investments not part of the cash management pool, with an initial maturity of more than three months, are reported as investments.

U. Prepaid Asset

Payments made to vendors for services that will benefit periods beyond June 30, 2021 are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is recorded in the year in which services are consumed.

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

A. Change in Accounting Principles

For fiscal year 2021, the District has applied GASB Statement No. 95, "<u>Postponement of the Effective Dates of Certain Authoritative Guidance.</u>" GASB Statement No. 95 provides temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. This objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later.

Certain provisions contained in the following pronouncements were scheduled to be implemented for the fiscal year ended June 30, 2021. Due to the implementation of GASB Statement No. 95, the effective dates of certain provisions contained in these pronouncements are postponed until the fiscal year ended June 30, 2022:

- Statement No. 87, *Leases*
- Implementation Guide No. 2019-3, *Leases*
- Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period
- Statement No. 92, Omnibus 2020
- Statement No. 93, Replacement of Interbank Offered Rates

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE - (Continued)

B. Deficit Fund Balances

Fund balances at June 30, 2021 included the following individual fund deficits:

Nonmajor funds	<u>Deficit</u>
Miscellaneous State Grants	\$ 76,733
ESSER	472,531
IDEA Part B	114,629
School Improvement	2,985
Title III	8,234
Title I	77,548
IDEA Part B - Preschool	2,238
Supporting Effective Instruction	31,188
Miscellaneous Federal Grants	3,509

The general fund is liable for any deficit in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities.

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories.

Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

- 1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met.
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
- 6. No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 7. The State Treasurer's investment pool, the State Treasury Asset Reserve of Ohio (STAR Ohio);
- 8. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days and two hundred seventy days, respectively, from the purchase date in an amount not to exceed forty percent of the interim monies available for investment at any one time; and rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. Except as noted above, an investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Deposits with Financial Institutions

At June 30, 2021, the carrying amount of all District deposits was \$68,835,707 Based on the criteria described in GASB Statement No. 40, "Deposits and Investment Risk Disclosures", as of June 30, 2021, \$69,444,180 of the District's bank balance of \$69,694,180 was exposed to custodial risk as discussed below, while \$250,000 was covered by the FDIC.

Custodial credit risk is the risk that, in the event of bank failure, the District will not be able to recover deposits or collateral securities that are in the possession of an outside party. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or protected by (1) eligible securities pledged to the District and deposited with a qualified trustee by the financial institution as security for repayment whose fair value at all times shall be at least 105 percent of the deposits being secured, or (2) participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total fair value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State. For 2021, the District's financial institutions were approved for a collateral rate of 102 percent through the OPCS. Although all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the District to a successful claim by the FDIC.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

B. Investments

As of June 30, 2021, the District had the following investments and maturities:

The weighted average of maturity of investments is 1.49 years.

The District's investments in U.S. Government money market funds are valued using quoted market prices in active markets (Level 1 inputs). The District's investments in federal agency securities (FHLB, FFCB, FHLMC, FAMC and FNMA), US Treasury notes, commercial paper and negotiable CDs are valued using quoted prices in markets that are not considered to be active, dealer quotations or alternative pricing sources for similar assets or liabilities for which all significant inputs are observable, either directly or indirectly (Level 2 inputs).

Interest Rate Risk: As a means of limiting its exposure to fair value losses arising from rising interest rates and according to State law, the District's investment policy limits investment portfolio maturities to five years or less.

Credit Risk: The District's investments in federal agency securities and US Treasury Notes were rated AA+ and Aaa by Standard & Poor's and Moody's Investor Services, respectively. The commercial paper was rated P1 by Moody's. Standard & Poor's has assigned STAR Ohio and the U.S. Government money market a AAAm money market rating. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The negotiable CD's were not rated. The District's investment policy does not specifically address credit risk beyond requiring the District to only invest in securities authorized by State statute.

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the Treasurer or qualified trustee.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Concentration of Credit Risk: The District places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held by the District at June 30, 2021:

NOTE 5 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 5 - PROPERTY TAXES - (Continued)

Property taxes include amounts levied against all real property and public utility property. Real property tax revenues received in calendar year 2021 represent the collection of calendar year 2020 taxes. Real property taxes received in calendar year 2021 were levied after April 1, 2020, on the assessed values as of January 1, 2020, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Public utility property tax revenues received in calendar year 2021 represent the collection of calendar year 2020 taxes. Public utility real and personal property taxes received in calendar year 2021 became a lien on December 31, 2019, were levied after April 1, 2020, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

The District receives property taxes from Franklin and Delaware Counties. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2021, are available to finance fiscal year 2021 operations. The amount available as an advance at June 30, 2021 was \$49,799,516 in the general fund, \$4,063,858 in the debt service fund (a nonmajor governmental fund) and \$3,314,830 in the permanent improvement fund (a nonmajor governmental fund). This amount is recorded as revenue. The amount available as an advance at June 30, 2020 was \$6,931,118 in the general fund, \$737,111 in the debt service fund (a nonmajor governmental fund) and \$503,433 in the permanent improvement fund (a nonmajor governmental fund). The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and delinquent tangible personal property taxes which are measurable as of June 30, 2021 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows.

On the accrual basis of accounting, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis of accounting the revenue has been reported as a deferred inflow.

The assessed values upon which the fiscal year 2021 taxes were collected are:

		2020 Secon	nd	2021 First
		Half Collecti	ions	Half Collections
	-	Amount	Percent	Amount Percent
Agricultural/residential				
and other real estate	\$	2,637,709,430	97.95	\$ 3,082,867,100 98.05
Public utility personal		55,271,050	2.05	61,273,460 1.95
Total	\$	2,692,980,480	100.00	\$ 3,144,140,560 100.00

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 6 - TAX ABATEMENTS ENTERED INTO BY OTHER GOVERNMENTS

The City of Westerville provides tax abatements through Community Reinvestment Areas (CRAs).

Under the authority of Ohio Revised Code (ORC) Section 3735.67, the CRA program is an economic development tool administered by municipal and county governments that provides real property tax exemptions for property owners who renovate existing or construct new buildings. CRA's are areas of land in which property owners can receive tax incentives for investing in real property improvements. Under the CRA program, local governments petition to the Ohio Development Services Agency (ODSA) for confirmation of a geographical area in which investment in housing is desired. Once an area is confirmed by the ODSA, local governments may offer real property tax exemptions to taxpayers that invest in that area. Property owners in the CRA can receive temporary tax abatements for renovation of existing structures and new construction in these areas. Property owners apply to the local legislative authority for approval to renovate or construct in the CRA. Upon approval and certification of completion, the amount of the abatement is deducted from the individual or entity's property tax bill.

The CRA agreements entered into by the City of Westerville affect the property tax receipts collected and distributed to the District. There were 17 parcels that have taxes abated through CRA agreements that affected the District. Under these agreements, the District property taxes were reduced by \$1,854,164.

NOTE 7 - RECEIVABLES

Receivables and due from other governments at June 30, 2021 consisted of taxes, accounts, payments in lieu of taxes, accrued interest and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs and the current year guarantee of federal funds.

A summary of the principal items is as follows:

Governmental Activities:

Taxes - Current & Delinquent	\$ 156,717,647
Payment in Lieu of Taxes	5,769,919
Accounts	33,745
Accrued Interest	288,897
Intergovernmental	2,396,008
Total	\$ 165,206,216

NOTE 8 - INTERFUND TRANSACTIONS

A. Interfund balances at June 30, 2021 as reported on the fund statements, consist of the following amounts receivable/payable from other funds:

Receivable fund	Payable fund	<u>Amount</u>
General fund	Nonmajor governmental funds	\$ 104,323

The primary purpose of the interfund balances is to cover negative cash balances in specific funds where revenues were not received by June 30. These interfund balances will be repaid once the anticipated revenues are received. All interfund balances are expected to be repaid within one year.

Interfund balances between governmental funds are eliminated on the government-wide financial statements; therefore, no internal balances at June 30, 2021 are reported on the statement of net position.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 8 - INTERFUND TRANSACTIONS - (Continued)

B. Interfund transfers for the fiscal year ended June 30, 2021, consisted of the following, as reported on the fund statements.

Transfers from:	<u>Transfer to:</u>	_	Amount
General	Permanent Improvement	\$	65,000
Permanent Improvement	Debt Service		2,926,375
Total		\$	2,991,375

Transfers are used to move revenues from the fund that statute or budget required to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. The permanent improvement fund transferred \$2,926,375 to the debt service fund in accordance with Ohio Revised Code 5705.14(B).

D. 1

Interfund transfers between governmental funds are eliminated on the government-wide financial statements.

All transfers were made in compliance with Ohio Revised Code Sections 5705.14, 5705.15 and 5705.16.

NOTE 9 - CAPITAL ASSETS

Central Services	110,367
Food Service Operations	95,764
Community Services	24,950
Extracurricular Activities	 314,233
Total depreciation expense	\$ 7,589,267

NOTE 10 - LONG-TERM OBLIGATIONS

All current obligation bonds outstanding were issued to provide funds for the acquisition and construction of equipment and facilities. The tax anticipation notes are related to various long-term capital projects and are accounted for as long-term obligations. All bonds and notes are general obligations of the District for which the full faith and credit of the District is pledged for repayment. Payments of principal and interest relating to these liabilities are recorded as expenditures in the Debt Service Fund (a nonmajor governmental fund) with the exception of the Certificates of Participation. Long-term obligations currently outstanding are reported as follows:

<u>Purpose</u>	Date <u>Issued</u>	Interest Rate	Final <u>Maturity</u>	Original Amount	Balance at June 30, 2021
Advance bond refunding (1)	12/14/06	4.0-5.0%	12/01/27	\$ 48,365,000	\$ 22,365,000
Tax anticipation notes (2)	03/23/10	2.82%	12/01/20	24,415,000	-
Advance bond refunding (3)	08/15/12	0.45-3.04%	12/01/22	27,320,000	2,895,000
Advance bond refunding (4)	09/01/16	2.67%	12/01/23	23,040,000	14,015,000
Certificates of Participation	10/25/18	3.5-5.0%	12/01/42	39,000,000	39,000,000
School improvement bonds	03/11/20	1.5-4.0%	12/01/56	103,000,000	92,925,000

- (1) Refunded portions of bonds previously issued on 3/15/01.
- (2) Notes issued in anticipation of the collection of proceeds of the 3.95 mill permanent improvement levy approved by the electors of the school district at the election held May 5, 2009. Proceeds to be used for the acquisition and construction of various long-term permanent improvements projects.
- (3) Refunded portions of bonds previously issued on 04/07/04.
- (4) Refunded portions of bonds previously issued on 12/14/06.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)

In December 2006, the District issued \$48,365,000 of general obligation refunding bonds, Series 2006 with interest rates ranging from 4% to 5% (maturing from December 2009 through December 2027) to advance refund a portion of the District's outstanding general obligation bonds. The District defeased these general obligation bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for all the future debt service payments on the old bonds. The advance refunding represents both legal and in-substance defeasance and was accounted for in accordance with GASB Statement No. 7, *Advance Refundings Resulting in Defeasance of Debt.* Accordingly, the trust accounts assets and the liability for the defeased bonds are not included in the District's financial statements. At June 30, 2012, all of these bonds had matured.

In August 2012, the District issued \$27,320,000 of general obligation refunding bonds, Series 2012 with interest rates ranging from .45% to 3.04% (maturing from December 2012 through December 2022) to advance refund a portion of the District's outstanding general obligation bonds. This issue included an additional \$120,000 in capital appreciation bonds, with a stated interest of 65.58% (matured December 2018). The accreted value at maturity for the capital appreciation bonds was \$4,165,000. The District defeased these general obligation bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. The advance refunding represents both legal and in-substance defeasance and was accounted for in accordance with GASB Statement No. 7, *Advance Refundings Resulting in Defeasance of Debt.* Accordingly, the trust accounts assets and the liability for the defeased bonds are not included in the District's financial statements. The balance of the refunded bonds was \$2,895,000 at June 30, 2021.

The reacquisition price exceeded the net carrying amount of the old debt by \$3,090,736. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued.

In September 2016, the District issued \$23,040,000 of general obligation refunding bonds, Series 2016 with an interest rate of 2.665% (maturing from December 2017 through December 2023) to advance refund a portion of the District's outstanding general obligation bonds. The District defeased these general obligation bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. The advance refunding represents both legal and in-substance defeasance and was accounted for in accordance with GASB Statement No. 7, *Advance Refundings Resulting in Defeasance of Debt.* Accordingly, the trust accounts assets and the liability for the defeased bonds are not included in the District's financial statements. The balance of the refunded bonds was \$14,015,000 at June 30, 2021.

The reacquisition price exceeded the net carrying amount of the old debt by \$448,774. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued.

In March 2020, the District issued \$103,000,000 of general obligation bonds, Series 2020 with interest rates ranging from 1.5% to 4.0% (maturing from December 2020 through December 2056) for the purpose of constructing and renovating school facilities, including safety and security improvements and acquiring land.

At June 30, 2021, \$101,759,242 of the \$103,000,000 bond issuance was unspent.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)

The following is a summary of the District's future annual debt service requirements to maturity for general obligation bonds and notes.

Fiscal Year ending						
June 30,	Principal		Interest	Total		
2022	\$ 7,365,000	\$	4,338,363	\$	11,703,363	
2023	7,565,000		4,117,084		11,682,084

Total	\$ 132,200,000	\$	65,145,079	\$	197,345,079	

On October 25, 2018, the District issued \$39,000,000 in certificates of participation ("COPs") to finance the acquisition, construction and overall improvement of District facilities. As part of the official agreement, the District's buildings are being ground leased to Buckeye Leasing Services. The District makes rental payments which will pay for the debt service requirements on the COPs. The COPs bear an interest rate ranging from 3.5% to 5.0%. Principal on the COPs is due each December 1, beginning December 1, 2021, through and including December 1, 2042. Huntington National Bank, (the "Trustee"), is serving as the trustee for the COPs. Principal and interest payments in fiscal year 2021 totaled \$0 and \$1,858,387 respectively. These amounts are reported as debt service expenditures in the permanent improvement fund (a nonmajor governmental fund).

At June 30, 2021, \$6,107,852 of the \$39,000,000 COPs issuance was unspent.

The obligation of the District under the lease and any subsequent lease renewal is subject to the annual appropriation of the rental payments. Legal title to the facilities remains with the Trustee until all payments required under the lease have been made. In the event that sufficient monies are not appropriated or certified, the lease will terminate at the end of the current lease term and the District will have no further obligation to make rental payments. The Trustee, as assignee under the lease assignment, will have certain remedies under the ground lease and the lease, including the right to take possession of the project for the remainder of the term of the ground lease (through December 1, 2042).

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)

The COPs are not a general obligation of the District and are payable only from appropriations by the District for annual lease payments. The following is a summary of the future debt service requirements to maturity for the COPs:

Fiscal							
Year ending							
June 30,	Principal		Interest	Total			
2022	\$	1,040,000	\$ 1,837,588	\$	2,877,588		
2023		1,080,000	1,795,188		2,875,188		
2024		1,130,000	1,745,338		2,875,338		
2025		1,200,000	1,687,088		2,887,088		
2026		1,250,000	1,635,213		2,885,213		
2027-2031		7,050,000	7,290,905		14,340,905		
2032-2036		9,100,000	5,290,123		14,390,123		
2037-2041		11,635,000	2,746,638		14,381,638		
2042-2043		5,515,000	 236,750		5,751,750		
Total	\$	39,000,000	\$ 24,264,831	\$	63,264,831		

The ORC provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The ORC further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District.

The total voted and non-voted non-exempt debt of the District that could be issued subject to the 9% limitation described above is \$242,368,243. The total District debt (including the Notes) subject to this limitation is \$150,980,000. The total District unvoted debt that could be issued subject to the 1/10 of 1% limitation is \$2,692,980. The District has no debt subject to such limitation, leaving \$2,692,980, available for unvoted debt. Including the balance in the Debt Service Fund (a nonmajor governmental fund) at June 30, 2021 of \$10,911,304, the effects of these debt limitations at June 30, 2021 are a voted debt margin of \$161,683,954 and an unvoted debt margin of \$3,144,141.

The aggregate amount of the District's unvoted debt is also subject to overlapping debt restrictions with the Westerville Public Library (the Library). As of June 30, 2021, the District and the Library have complied with the requirement that unvoted overlapping debt must not exceed 1% (10 mills) of the assessed property value. In the opinion of management, the District has complied with all bond covenants.

Payments of compensated absences are recorded as expenditures in the general fund, except for those of food service employees, which are recorded in the Food Service fund (a nonmajor governmental fund).

See Note 14 for details on the net pension liability. The District pays obligations related to employee compensation from the fund benefitting from their service, which is primarily the general fund and the food service fund.

See Note 15 for details on the net OPEB liability/asset. The District pays obligations related to employee compensation from the fund benefitting from their service, which is primarily the general fund and the food service fund.

See Note 11 for details on the capital lease obligation.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)

The following changes occurred in long-term liabilities during the year:

	Balance June 30, 2020 Additions			Additions	Reductions			Balance June 30, 2021		Amounts Due in One Year	
Governmental Activities:											
Net pension liability	\$	196,535,123	\$	24,171,057	\$	-	\$	220,706,180	\$	-

NOTE 11 - CAPITAL LEASE OBLIGATION

In a prior year, the District entered into capital lease agreements for the acquisition of copiers. These leases meet the criteria of a capital lease, which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee at the conclusion of the lease term.

Capital lease payments have been reclassified and are reflected as debt service expenditures in the financial statements for the governmental funds. These expenditures are reflected as purchased services expenditures on the budgetary statements. Capital assets acquired by lease have been capitalized in the amount of \$615,533 which is equal to the present value of the future minimum lease payments as of the date of their inception. Accumulated depreciation as of June 30, 2021 was \$184,660, leaving a current book value of \$430,873. A corresponding liability was recorded in the statement of net position. Principal payments in the 2021 fiscal year totaled \$85,233 This amount is reflected as debt service principal retirement in the general fund and as a reduction to the long-term liability on the statement of net position.

The following is a schedule of the future minimum lease payments required under the capital lease and the present value of the future minimum lease payments as of June 30, 2021:

Fiscal Year Ending June 30	Amount
2022	133,389
2023	133,388
2024	133,389
2025	133,389
2026	33,347
Total minimum lease payment	566,902
Less: amount representing interest	(36,602)
Present value of minimum lease payments	\$ 530,300

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 12 - SET-ASIDE CALCULATIONS

The District is required by State law to annually set-aside certain general fund revenue amounts, as defined by statutory formula, for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end. This amount must be carried forward to be used for the same purpose in future years. Expenditures exceeding the set-aside requirement may not be carried forward to the next fiscal year. The following cash-basis information describes the change in the fiscal year-end set-aside amount for capital improvements. Disclosure of this information is required by State Statute.

	_	Capital provements
Set-aside balance July 1, 2020	\$	-
Current year set-aside requirement		2,608,623
Contributions in excess of the current fiscal year set-aside requirement		-
Current year qualifying expenditures		(659,156)
Excess qualified expenditures from prior years		-
Current year offsets	((9,365,591)
Waiver granted by ODE		-
Prior year offset from bond proceeds		<u> </u>
Total	\$ ((7,416,124)
Balance carried forward to fiscal year 2022	\$	
Set-aside balance June 30, 2021	\$	_

NOTE 13 - BUDGET BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The statement of revenue, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to assigned or committed fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis);
- (d) Investments are reported at fair value (GAAP basis) rather than cost (budget basis); and,

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 13 - BUDGET BASIS OF ACCOUNTING - (Continued)

(e) Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund is as follows:

	Ge	neral fund
Budget basis	\$	8,198,053
Net adjustment for revenue accruals		39,042,240
Net adjustment for expenditure accruals		2,091,211
Net adjustment for other financing sources (uses)		(18,580)
Funds budgeted elsewhere		(25,116)
Adjustment for encumbrances		5,148,292
GAAP basis	\$	54,436,100

Certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund on a GAAP basis. This includes the uniform school supplies, the public school support fund and unclaimed fund.

NOTE 14 - DEFINED BENEFIT PENSION PLANS

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability/Net OPEB Liability/Asset

Pensions and OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net pension/OPEB liability (asset) represent the District's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

The remainder of this note includes the required pension disclosures. See Note 15 for the required OPEB disclosures.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension/OPEB liability (asset)* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in pension and postemployment obligation payable on both the accrual and modified accrual bases of accounting.

Plan Description - School Employees Retirement System (SERS)

Plan Description - The District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

Eligible to		Eligible to
Retire on or before		Retire after
	August 1, 2017 *	August 1, 2017
Full benefits	Age 65 with 5 years of services credit: or Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially reduced benefits	Age 60 with 5 years of service credit; or Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

^{*} Members with 25 years of service credit as of August 1, 2017 will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2% for the first thirty years of service and 2.5% for years of service credit over 30. Final average salary is the average of the highest three years of salary.

Effective January 1, 2018, SERS cost-of-living adjustment (COLA) changed from a fixed 3% annual increase to one based on the Consumer Price Index (CPI-W) with a cap of 2.5% and a floor of 0%. SERS also has the authority to award or suspend the COLA, or to adjust the COLA above or below CPI-W. SERS suspended the COLA increases for 2018, 2019 and 2020 for current retirees, and confirmed their intent to implement a four-year waiting period for the start of a COLA for future retirees. For 2021, the COLA was 0.5%.

Funding Policy - Plan members are required to contribute 10% of their annual covered salary and the District is required to contribute 14% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10% for plan members and 14% for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2021, the allocation to pension, death benefits, and Medicare B was 14.0%.

The District's contractually required contribution to SERS was \$3,068,343 for fiscal year 2021. Of this amount, \$129,095 is reported as pension and postemployment obligation payable.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

Plan Description - State Teachers Retirement System (STRS)

Plan Description - Licensed teachers participate in STRS, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS website at www.strsoh.org.

New members have a choice of three retirement plans: a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined (CO) Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB Plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2% of final average salary for the five highest years of earnings multiplied by all years of service. Effective July 1, 2017, the cost-of-living adjustment was reduced to zero. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 28 years of service, or 33 years of service regardless of age. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60.

The DC Plan allows members to place all of their member contributions and 9.53% of the 14% employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.47% of the 14% employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12% of the 14% member rate goes to the DC Plan and the remaining 2% is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity after termination of employment at age 50 and after termination of employment.

New members who choose the DC Plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For fiscal year 2021, plan members were required to contribute 14% of their annual covered salary. The District was required to contribute 14%; the entire 14% was the portion used to fund pension obligations. The fiscal year 2021 contribution rates were equal to the statutory maximum rates.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

The District's contractually required contribution to STRS was \$13,498,066 for fiscal year 2021. Of this amount, \$2,392,845 is reported as pension and postemployment obligation payable.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the projected contributions of all participating entities.

Following is information related to the proportionate share and pension expense:

	SERS	STRS	Total
Proportion of the net pension			
liability prior measurement date	0.57347700%	0.73356273%	
Proportion of the net pension			
liability current measurement date	0.58530010%	0.75214860%	
Change in proportionate share	0.01182310%	0.01858587%	
Proportionate share of the net			
pension liability	\$ 38,712,982	\$ 181,993,198	\$ 220,706,180
Pension expense	\$ 5,148,615	\$ 26,732,267	\$ 31,880,882

At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	 SERS	 STRS	Total
Deferred outflows of resources	_	 _	 _
Differences between expected and			
actual experience	\$ 75,198	\$ 408,348	\$ 483,546
Net difference between projected and			
actual earnings on pension plan investments	2,457,489	8,850,353	11,307,842
Changes of assumptions	-	9,769,519	9,769,519
Difference between employer contributions			
and proportionate share of contributions/			
change in proportionate share	672,667	6,016,676	6,689,343
Contributions subsequent to the			
measurement date	 3,068,343	 13,498,066	 16,566,409
Total deferred outflows of resources	\$ 6,273,697	\$ 38,542,962	\$ 44,816,659

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

	SERS		STRS	Total
Deferred inflows of resources				
Differences between expected and				
actual experience	\$	-	\$ 1,163,720	\$ 1,163,720
Difference between employer contributions				
and proportionate share of contributions/				
change in proportionate share		_	513,545	513,545
Total deferred inflows of resources	\$		\$ 1,677,265	\$ 1,677,265

\$16,566,409 reported as deferred outflows of resources related to pension resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2022.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	 SERS STRS		 Total	
Fiscal Year Ending June 30:				
2022	\$ 507,443	\$	7,756,117	\$ 8,263,560
2023	904,172		4,232,783	5,136,955

2025	 769,406		4,743,677	 5,513,083
Total	\$ 3,205,354	\$	23,367,631	\$ 26,572,985

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2020, are presented below:

Wage inflation 3.00%

Future salary increases, including inflation 3.50% to 18.20%

COLA or ad hoc COLA 2.50%

Investment rate of return 7.50% net of investment expense, including inflation Actuarial cost method Entry age normal (level percent of payroll)

For 2020, the mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five-year age set-back for both males and females. Mortality among service retired members, and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates. Mortality among disabled members was based upon the RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	2.00 %	1.85 %
US Equity	22.50	5.75
International Equity	22.50	6.50
Fixed Income	19.00	2.85
Private Equity	12.00	7.60
Real Assets	17.00	6.60
Multi-Asset Strategies	5.00	6.65
Total	100.00 %	

Discount Rate - The total pension liability was calculated using the discount rate of 7.50%. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.50%). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50%, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50%), or one percentage point higher (8.50%) than the current rate.

	19	1% Decrease		scount Rate	1	% Increase
District's proportionate share		_				
of the net pension liability	\$	53,032,058	\$	38,712,982	\$	26,699,005

Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2020, actuarial valuation are presented below:

	July 1, 2020			
Inflation	2.50%			
Projected salary increases	12.50% at age 20 to			
	2.50% at age 65			
Investment rate of return	7.45%, net of investment expenses, including inflation			
Payroll increases	3.00%			
Cost-of-living adjustments (COLA)	0.00%			

For the July 1, 2020, actuarial valuation, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50% of rates through age 69, 70% of rates between ages 70 and 79, 90% of rates between ages 80 and 84, and 100% of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90% of rates for males and 100% of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the July 1, 2020 valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS Ohio's investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return *
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	100.00 %	

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

**10-Year geometric nominal returns, which include the real rate of return and inflation of 2.25% and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate - The discount rate used to measure the total pension liability was 7.45% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2020. Therefore, the long-term expected rate of return on pension plan investments of 7.45% was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2020.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45%) or one-percentage-point higher (8.45%) than the current rate:

		Current					
	1% Decrease		Discount Rate		1% Increase		
District's proportionate share							
of the net pension liability	\$	259,126,630	\$	181,993,198	\$	116,629,039	

NOTE 15 - DEFINED BENEFIT OPEB PLANS

Net OPEB Liability/Asset

See Note 14 for a description of the net OPEB liability (asset).

Plan Description - School Employees Retirement System (SERS)

Health Care Plan Description - The District contributes to the SERS Health Care Fund, administered by SERS for noncertificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Annual Comprehensive Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 15 - DEFINED BENEFIT OPEB PLANS - (Continued)

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14% of covered payroll to the Health Care Fund in accordance with the funding policy. For the fiscal year ended June 30, 2021, SERS did not allocate any employer contributions to post-employment health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2021, this amount was \$23,000. Statutes provide that no employer shall pay a health care surcharge greater than 2% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2021, the District's surcharge obligation was \$412,432.

The surcharge added to the allocated portion of the 14% employer contribution rate is the total amount assigned to the Health Care Fund. The District's contractually required contribution to SERS was \$412,432 for fiscal year 2021. Of this amount, \$412,432 is reported as pension and postemployment obligation payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description - The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2021. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy - Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14% of covered payroll. For the fiscal year ended June 30, 2021, STRS did not allocate any employer contributions to post-employment health care.

OPEB Liabilities/Assets, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability/asset was measured as of June 30, 2020, and the total OPEB liability/asset used to calculate the net OPEB liability/asset was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability/asset was based on the District's share of contributions to the respective retirement systems relative to the contributions of all participating entities.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 15 - DEFINED BENEFIT OPEB PLANS - (Continued)

Following is information related to the proportionate share and OPEB expense:

Total	\$	(3,855,236)	\$	(13,553,263)	\$	(17,408,499)

Actuarial Assumptions - SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 15 - DEFINED BENEFIT OPEB PLANS - (Continued)

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2020 are presented below:

Wage inflation Future salary increases, including inflation	3.00% 3.50% to 18.20%
Investment rate of return	7.50% net of investment expense, including inflation
Municipal bond index rate:	1 / 3
Measurement date	2.45%
Prior measurement date	3.13%
Single equivalent interest rate, net of plan investment expense,	
including price inflation:	
Measurement date	2.63%
Prior measurement date	3.22%
Medical trend assumption:	
Measurement date	
Medicare	5.25 to 4.75%
Pre-Medicare	7.00 to 4.75%
Prior measurement date	
Medicare	5.25 to 4.75%
Pre-Medicare	7.00 to 4.75%

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120% of male rates and 110% of female rates. RP-2000 Disabled Mortality Table with 90% for male rates and 100% for female rates set back five years.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50%, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 15 - DEFINED BENEFIT OPEB PLANS - (Continued)

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2015 five-year experience study, are summarized as follows:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	2.00 %	1.85 %
US Equity	22.50	5.75
International Equity	22.50	6.50
Fixed Income	19.00	2.85
Private Equity	12.00	7.60
Real Assets	17.00	6.60
Multi-Asset Strategies	5.00	6.65
Total	100.00 %	

Discount Rate - The discount rate used to measure the total OPEB liability at June 30, 2020 was 2.63%. The discount rate used to measure total OPEB liability prior to June 30, 2019 was 3.22%. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the state statute contribution rate of 2.00% of projected covered employee payroll each year, which includes a 1.50% payroll surcharge and 0.50% of contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2024 and the Fidelity General Obligation 20-year Municipal Bond Index rate of 2.45%, as of June 30, 2020 (i.e. municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. A municipal bond rate of 3.13% was used as of June 30, 2019. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates - The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (1.63%) and higher (3.63%) than the current discount rate (2.63%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.00% decreasing to 3.75%) and higher (8.00% decreasing to 5.75%) than the current rate (7.00% decreasing to 4.75%).

	19	% Decrease	Di	Current scount Rate	1% Increase	
District's proportionate share of the net OPEB liability	•		\$	\$ 13,218,926		10,865,166
				Current Trend Rate	1% Increase	
District's proportionate share of the net OPEB liability	\$	10,408,899	\$	13,218,926	\$	16,976,652

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 15 - DEFINED BENEFIT OPEB PLANS - (Continued)

Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2020, actuarial valuation, compared with July 1, 2019, are presented below:

	July 1	1, 2020	July 1, 2019			
Inflation	2.50%		2.50%			
Projected salary increases	12.50% at age 20	0 to	12.50% at age 2	0 to		
·	2.50% at age 65		2.50% at age 65			
Investment rate of return	7.45%, net of invexpenses, inclu		7.45%, net of investment expenses, including inflation			
Payroll increases	3.00%		3.00%			
Cost-of-living adjustments (COLA)	0.00%		0.00%			
Discount rate of return	7.45%		7.45%			
Blended discount rate of return	N/A		N/A			
Health care cost trends						
	Initial	Ultimate	Initial	Ultimate		
Medical						
Pre-Medicare	5.00%	4.00%	5.87%	4.00%		
Medicare	-6.69%	4.00%	4.93%	4.00%		
Prescription Drug						
Pre-Medicare	6.50%	4.00%	7.73%	4.00%		
Medicare	11.87%	4.00%	9.62%	4.00%		

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50% of rates through age 69, 70% of rates between ages 70 and 79, 90% of rates between ages 80 and 84, and 100% of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90% of rates for males and 100% of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2020 valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

Assumption Changes Since the Prior Measurement Date - There were no changes in assumptions since the prior measurement date of June 30, 2019.

Benefit Term Changes Since the Prior Measurement Date - There was no change to the claims costs process. Claim curves were updated to reflect the projected fiscal year end 2021 premium based on June 30, 2020 enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984% to 2.055% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 15 - DEFINED BENEFIT OPEB PLANS - (Continued)

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return *
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	100.00 %	

^{**10-}Year geometric nominal returns, which include the real rate of return and inflation of 2.25% and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate - The discount rate used to measure the total OPEB asset was 7.45% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes STRS Ohio continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on health care plan investments of 7.45% was used to measure the total OPEB asset as of June 30, 2020.

Sensitivity of the District's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate - The following table represents the net OPEB asset as of June 30, 2020, calculated using the current period discount rate assumption of 7.45%, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.45%) or one percentage point higher (8.45%) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

	19	1% Decrease		Current scount Rate	1% Increase

NOTE 16 - CONTINGENCIES

A. Grants

The District receives significant financial assistance from numerous federal, State and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However, in the opinion of management, any such disallowed claims will not have a material effect on the financial position of the District.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 16 – CONTINGENCIES - (Continued)

B. Litigation

There are currently a few matters in litigation with the District as a defendant. It is the opinion of management that the potential claims against the District not covered by insurance would not materially affect the financial statements.

NOTE 17 - JOINTLY GOVERNED ORGANIZATIONS

Meta Solutions

The District is a participant in Meta Solutions which is a computer consortium. Meta Solutions develops, implements and supports the technology and instructional needs of schools in a cost-effective manner. Meta Solutions provides instructional, core, technology and purchasing services for its member districts. The Board of Directors consists of the Superintendents from eight of the member districts. Financial information can be obtained from Ashley Widby, Chief Financial Officer, 100 Executive Drive, Marion, Ohio 43302.

NOTE 18 - RELATED ORGANIZATION

The Westerville School District Library is a political subdivision of the State of Ohio created under Chapter 3375 of the Ohio Revised Code. The Library is governed by Board of Trustees appointed by the Westerville City School District Board of Education. The Board of Trustees possesses its own contracting and budgetary authority, hires and fires personnel and does not depend on the District for operating subsidies. Although the District does serve as the taxing authority and may issue tax related debt on behalf of the Library, its role is limited to a ministerial function. The determination to request approval of a tax, the tax rate and purpose are discretionary decisions made solely by the Board of Trustees. Financial information may be obtained from the Westerville School District Library at 126 South State Street, Westerville, Ohio 43081.

NOTE 19 - RISK MANAGEMENT

For fiscal year 2021, the District was enrolled in the retrospective rating plan for worker's compensation. The retrospective rating plan allows an employer to assume a portion of the risk in return for a possible reduction in premiums. The greater the assumed risk, the greater the potential reduction in premiums.

Employers who have a consistent claims history and proven safety practices will benefit most from the retrospective rating. The employer can customize the retrospective rating plan to control the amount of risk assumed and the potential savings by selecting the maximum premium and claims costs they are willing to pay. Employers may benefit from retrospective rating because of lower initial premiums and realized cash flow advantages, which increase as premiums are saved.

The District's Workers' Compensation program is accounted for in the workers' compensation internal service fund which pays for all claims, claim reserves and administrative costs of the program. The general fund generates revenues by charging each fund a percentage rate determined by the Bureau for the payroll during the reporting period.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 19 - RISK MANAGEMENT – (Continued)

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. The District contracts with an insurance carrier for property insurance and general liability insurance. Professional liability is protected by a \$1,000,000 single occurrence limit, \$2,000,000 general aggregate limit, \$2,000,000 umbrella aggregate limit and no deductible. Vehicles are also covered and have a \$500 deductible for comprehensive and a \$2,000 deductible for collision. Automotive liability has a \$1,000,000 combined single limit of liability. Settlements have not exceeded coverage in any of the last three years, and there has been no reduction in coverage from the prior years.

Post employment health care is provided to plan participants or their beneficiaries through the respective retirement systems discussed in Note 15. As such, no funding is required by the District.

The District provides life insurance and accidental death and dismemberment insurance to all employees in an amount related to the employee's position, ranging from \$30,000 to \$429,000.

The District has established a limited risk management program for hospital/medical and dental benefits. Premiums are paid into the Self-Insurance Fund by all other funds and are available to pay claims, claim reserves and administrative costs of the program. During fiscal year 2021, a total expense of \$2,695,184 was incurred in administrative costs. An excess coverage insurance policy covers individual claims in excess of \$150,000. The liability for unpaid claims of \$3,197,381 reported at June 30, 2021 is based on the requirements of GASB Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues", as amended by GASB Statement No. 30, "Risk Financing Omnibus", which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred, but not reported claims, be accrued at the estimated ultimate cost of settling claims. The District anticipates that these claims will be paid in the next fiscal year and has reported the entire liability as due within one year on the Statement of Net Position.

Changes in the fund's claims liability amount in 2021 was:

Fiscal Year	Beginning Balance	Claims Incurred	Claims Payments	Ending Balance
2021	\$ 2,826,522	\$ 22,143,531	\$ (21,772,672)	\$ 3,197,381
2020	1,695,000	22,829,923	(21,698,401)	2,826,522

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 20 - CONTRACTUAL COMMITMENTS

The District had contracts outstanding for renovations, buses, computers, furnishings, and construction. Below are outstanding contractual commitments at fiscal year end:

	Contract Amount		Am	ount Paid as		Balance
<u>Vendor</u>			of J	une 30, 2021	I	Remaining
2K General Company	\$	1,576,000	\$	-	\$	1,576,000

Total	\$	50,048,744	\$	23,393,775	\$	26,654,969

NOTE 21 - OTHER COMMITMENTS

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year-end may be reported as part of restricted, committed, or assigned classifications of fund balance. At year end, the District's commitments for encumbrances in the governmental funds were as follows:

		Year-End
<u>Fund</u>	<u>En</u>	<u>cumbrances</u>
General fund	\$	2,963,684
Building fund		20,233,350
Nonmajor governmental funds		4,130,942
Total	\$	27,327,976

NOTE 22 - COVID-19

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the District. The District's investment portfolio and the pension and other employee benefits plan in which the District participate fluctuates with market conditions, and due to market volatility, the amount of gains or losses that will be realized in subsequent periods, if any, cannot be determined. In addition, the impact on the District's future operating costs, revenues, and additional recovery from emergency funding, either federal or state, cannot be estimated.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 23 - SUBSEQUENT EVENT

For fiscal year 2022, District foundation funding received from the State of Ohio will be funded using a direct funding model. Under this new model, community school, STEM school, scholarship, and open enrollment funding will be directly funded by the State of Ohio to the respective educating schools. For fiscal year 2021 and prior, the amounts related to students who were residents of the District were funded to the District who, in turn, made the payment to the educating school. For fiscal year 2021, the District reported \$9,784,016 in revenues and expenditures/expenses related to these programs. This new funding system calculates a unique base cost and a unique "per-pupil local capacity amount" for each District. The District's state core foundation funding is then calculated. Any change in funding will be subject to a phase in percentage of 16.67 percent for fiscal year 2022 and 33.33 percent for fiscal year 2023.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30,2021

PENSION

SCHOOL EMPLOYEES RETIREMENT SYSTEM (SERS) OF OHIO

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for fiscal years 2014-2017. For fiscal year 2018, SERS changed from a fixed 3% annual increase to a Cost of Living Adjustment (COLA) based on the changes in the Consumer Price Index (CPI-W), with a cap of 2.5% and a floor of 0%. There were no changes in benefit terms from the amounts previously reported for fiscal years 2019-2021.

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for fiscal years 2014-2016. For fiscal year 2017, the following changes of assumptions affected the total pension liability since the prior measurement date: (a) the assumed rate of inflation was reduced from 3.25% to 3.00%, (b) payroll growth assumption was reduced from 4.00% to 3.50%, (c) assumed real wage growth was reduced from 0.75% to 0.50%, (d) rates of withdrawal, retirement and disability were updated to reflect recent experience, (e) mortality among active members was updated to RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females, (f) mortality among service retired members and beneficiaries was updated to the following RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates and 110% of female rates, (g) mortality among disabled members was updated to RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement and (h) the discount rate was reduced from 7.75% to 7.50%. There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for fiscal years 2018-2021.

STATE TEACHERS RETIREMENT SYSTEM (STRS) OF OHIO

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for fiscal years 2014-2017. For fiscal year 2018, STRS decreased the Cost of Living Adjustment (COLA) to zero. There were no changes in benefit terms from amounts previously reported for fiscal years 2019-2021.

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for fiscal years 2014-2017. For fiscal year 2018, the following changes of assumption affected the total pension liability since the prior measurement date: (a) the long-term expected rate of return was reduced from 7.75% to 7.45%, (b) the inflation assumption was lowered from 2.75% to 2.50%, (c) the payroll growth assumption was lowered to 3.00%, (d) total salary increases rate was lowered by decreasing the merit component of the individual salary increases, in addition to a decrease of 0.25% due to lower inflation, (e) the healthy and disabled mortality assumptions were updated to the RP-2014 mortality tables with generational improvement scale MP-2016 and (f) rates of retirement, termination and disability were modified to better reflect anticipated future experience. There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for fiscal years 2019-2021.

OTHER POSTEMPLOYMENT BENEFITS (OPEB) (Continued)

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for fiscal year 2017. For fiscal year 2018, the following changes of assumptions affected the total OPEB liability since the prior measurement date: (a) assumed rate of inflation was reduced from 3.25% to 3.00%, (b) payroll growth assumption was reduced from 4.00% to 3.50%, (c) assumed real wage growth was reduced from 0.75% to 0.50%, (d) rates of withdrawal, retirement, and disability were updated to reflect recent experience, (e) mortality among active members was updated to the following: RP-2014 Blue Collar Mortality Table with fully generational projection and a five-year age set-back for both males and females, (f) mortality among service retired members and beneficiaries was updated to the following: RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates, (g) mortality among disabled members was updated to the following: RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement, (h) the municipal bond index rate increased from 2.92% to 3.56% and (i) the single equivalent interest rate, net of plan investment expense, including price inflation increased from 2.98% to 3.63%. For fiscal year 2019, the following changes of assumptions affected the total OPEB liability since the prior measurement date: (a) the discount rate increased from 3.63% to 3.70%, (b) the health care cost trend rates for Medicare were changed from a range of 5.50%-5.00% to a range of 5.375%-4.75% and Pre-Medicare were changed from a range of 7.50%-5.00% to a range of 7.25%-4.75%, (c) the municipal bond index rate increased from 3.56% to 3.62% and (d) the single equivalent interest rate, net of plan investment expense, including price inflation increased from 3.63% to 3.70%. For fiscal year 2020, the following changes of assumptions affected the total OPEB liability since the prior measurement date: (a) the discount rate decreased from 3.70% to 3.22%, (b) the health care cost trend rates for Medicare were changed from a range of 5.375%-4.75% to a range of 5.25%-4.75% and Pre-Medicare were changed from a range of 7.25%-4.75% to a range of 7.00%-4.75%, (c) the municipal bond index rate decreased from 3.62% to 3.13% and (d) the single equivalent interest rate, net of plan investment expense, including price inflation decreased from 3.70% to 3.22%. For fiscal year 2021, the following changes of assumptions affected the total OPEB liability since the prior measurement date: (a) the discount rate decreased from 3.22% to 2.63% and (b) the municipal bond index rate decreased from 3.13% to 2.45%.

STATE TEACHERS RETIREMENT SYSTEM (STRS) OF OHIO

Changes in benefit terms: There were no changes in benefit terms from the amounts previously reported for fiscal year 2017. For fiscal year 2018, STRS reduced the subsidy multiplier for non-Medicare benefit recipients from 2.1% to 1.9% per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2019. For fiscal year 2019, STRS increased the subsidy multiplier for non-Medicare benefit recipients from 1.9% to 1.944% per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020. For fiscal year 2020, STRS increased the subsidy percentage from 1.944% to 1.984% effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021. For fiscal year 2021, the non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984% to 2.055% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the AMA Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for fiscal year 2017. For fiscal year 2018, the following changes of assumptions affected the total OPEB liability since the prior measurement date: (a) the discount rate was increased from 3.26% to 4.13% based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB), (b) the long term expected rate of return was reduced from 7.75% to 7.45%, (c) valuation year per capita health care costs were updated, and the salary scale was modified, (d) the percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased and (e) the assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs. For fiscal year 2019, the following changes of assumptions affected the total OPEB liability/asset since the prior measurement date: (a) the discount rate was increased from the blended rate of 4.13% to the long-term expected rate of return of 7.45% based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB) and (b) decrease in health care cost trend rates from 6.00%-11.00% initial; 4.50% ultimate down to Medical Pre-Medicare 6.00% and Medicare 5.00% initial; 4.00% ultimate and Prescription Drug Pre-Medicare 8.00% and Medicare (5.23%) initial; 4.00% ultimate. For fiscal year 2020, health care cost trend rates were changed to the following: medical pre-Medicare from 6.00% initial - 4.00% ultimate down to 5.87% initial -4.00% ultimate; medical Medicare from 5.00% initial - 4.00% ultimate down to 4.93% initial - 4.00% ultimate; prescription drug pre-Medicare from 8.00% initial - 4.00% ultimate down to 7.73% initial - 4.00% ultimate and (5.23%) initial - 4.00% ultimate up to 9.62% initial - 4.00% ultimate. For fiscal year 2021, health care cost trend rates were changed to the following: medical pre-Medicare from 5.87% initial - 4.00% ultimate down to 5.00% initial - 4.00% ultimate; medical Medicare from 4.93% initial - 4.00% ultimate down to 9.62% initial - 4.00% ultimate up to 11.87% initial - 4.00% ultimate.

WESTERVILLE CITY SCHOOL DISTRICT, OHIO OTHER GOVERNMENTAL FUNDS

Other Governmental Funds are established to account for revenues from specific sources, which legally, or otherwise, are restricted to expenditure for specific purposes. A description of the District's Other Governmental Funds follows:

Nonmajor Special Revenue Funds

Food Service

This fund is provided to account for financial transactions related to the District managed food service operation.

Special Trust

A fund used to account for assets held by a school system in a trustee capacity or as an agent for individuals, private organizations, other governments, or other funds.

Other Local

This fund is used to account for proceeds of specific revenue sources except state and federal grants that are legally restricted to expenditures for specified purposes.

District Agency

A fund used to account for those assets held by the district as an agency for individuals or staff.

Student Managed

This fund is used to account for those student activity programs which have student participation in the activity and have students involved in the management of the program. This typically includes those student activities which consist of student body, student president, student treasurer and faculty advisor.

District Managed

This fund is provided to account for those student activity programs that have student participation in the activity, but do not have student management of the programs. This fund would usually include athletic programs but could also include band, cheerleaders, and other similar types of activities.

Auxiliary Services

This fund is provided to account for State of Ohio monies that provide services and materials to pupils attending non-public schools within the District.

Data Communications

This fund is provided to account for monies received from the State of Ohio for expenses supporting the establishment, maintenance and upgrade of data communication links from the schools to the META Solutions, data acquisition site, and further to the Ohio Department of Education.

Student Wellness and Success

A fund provided to account for state monies that are restricted for specific purposes related to student wellness including mental health services, services for homeless youth, community liasons, physical health care services, mentoring programs, family engagement and support services, city connects programming, and professional development regarding competence.

Other State

This fund is used to account for various monies received from State of Ohio that are not classified elsewhere.

Elementary and Secondary School Emergency (ESSER)

To account for emergency relief grants related to the COVID-19 pandemic. Restrictions include, but are not limited to, providing for coordination of preparedness and response efforts, training and professional development of staff, planning and coordination during long-term closure, and purchasing technology for students.

WESTERVILLE CITY SCHOOL DISTRICT, OHIO OTHER GOVERNMENTAL FUNDS

Nonmajor Special Revenue Funds (Continued)

Coronavirus Relief Fund

A fund used to account for the costs related to the COVID-19 public health emergency.

IDEA, Part B

This fund is provided to account for Federal monies which assist in providing an appropriate public education to all children with disabilities.

School Improvement A

This fund accounts for federal monies used to help schools improve the teaching and learning of children failing, or most at risk of failing to meet challenging State academic achievement standards.

Title III

This fund is used to account for Federal monies to develop and carry out elementary and secondary school programs, including activities at the pre-school level, to meet the educational needs of children of limited English proficiency.

Transition Program for Refugee Children

This fund is used to account Federal monies to provide educational services to meet educational needs of refugee children who are enrolled in public elementary and secondary schools.

Title I

This fund is used to account for Federal monies to provide Local educational agencies to meet the special needs of educationally deprived children.

Preschool Handicapped

This fund is used to account for Federal monies which addresses the improvement and expansion of services for handicapped children ages three through five.

Title II-A - Supporting Effective Instruction

This fund is used to account for Federal monies to increase student achievement, improve the quality and effectiveness of teachers, principals and school leaders and increase the number of teachers, principals who are effective in improving student academic achievement in schools.

Miscellaneous Federal Grants

To account for Federal revenues received through State agencies from the Federal government or directly from the Federal government which are not classified elsewhere.

The following funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis):

Public School Support

This fund is provided to account for specific extra-curricular revenue sources, other than taxes (i.e. profits from vending machines, sales of pictures, etc.), that are assigned to expenditures for specified purposes approved by board resolution. Such expenditures may include curricular and extra-curricular related purchases.

Unclaimed Funds

This fund accounts for revenues and expenses involved in securing unclaimed funds.

WESTERVILLE CITY SCHOOL DISTRICT, OHIO OTHER GOVERNMENTAL FUNDS

Nonmajor Debt Service Governmental Fund

Debt Service

The Debt Service Fund is used to account for the accumulation of resources and payment of general obligation bond principal and interest and certain other long-term obligations from governmental resources when the District is obligated in some manner for the payment.

Nonmajor Capital Projects Governmental Fund

Permanent Improvement

A fund provided to account for transactions related to the acquiring, constructing or improving of permanent improvements and the purchase of textbooks and computers as are authorized by Section 5705, Ohio Revised Code.

WESTERVILLE CITY SCHOOL DISTRICT, OHIO INTERNAL SERVICE FUNDS

Internal Service Funds are established to account for the financing of goods or services provided by one department or agency of the District to other departments or agencies on a cost reimbursement basis. Charges are intended only to recoup the total cost of such services. A description of the District's Internal Service Funds follows:

Self Insurance

A fund provided to account for monies received from other funds as payment for providing medical and dental employee benefits. The Self Insurance Fund may make payments for services provided to employees, for reimbursement to employees who have paid providers, to third party administrators for claim payment administration, for stop-loss coverage, or any other reinsurance or similar purposes.

Worker's Compensation

This fund is used to account for monies received from other funds as payment for providing Worker's Compensation benefits to employees. This fund was closed during fiscal year 2021.

(This page left intentionally blank)

STATISTICAL SECTION

This part of the Westerville City School District's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

<u>Contents</u>

Financial Trends 130

These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

Revenue Capacity 136

These schedules contain information to help the reader assess the affordability of the District's most significant local revenue source, the property tax.

Debt Capacity 140

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Demographic and Economic Information

144

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

Operating Information

146

These schedules contain service data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.
