

In this chapter you will:

- Solve problems involving distance, rate, and time.
- Solve equations that have fractional or decimal coefficients.
- Find the whole amount if you only know a percentage of it, and vice versa.
- Calculate simple interest.
- Set up and solve proportional equations.

Self – Evaluation:

1) Did you complete all homework assignments? Yes No

If no, please explain:

2) Did you take the opportunity to seek extra help? Yes No

If yes, when and where did you get the extra help?

3) Reflect on TWO ideas in this unit. (You may not leave these blank!)

a) What is a concept that you feel CONFIDENT in discussing?

b) What is an area where you feel like you could use a little EXTRA HELP?

4) Write THREE things you learned in this unit. These must be written in complete sentences.
