

While this course is 100% student centered and will be throughout the semester this topic will be more research based. Basic information is required for you to understand about our State's founding document. Below are the content statements indicating what you will need to know about the Ohio Constitution:

AG 18: The Ohio Constitution was drafted in 1851 to address difficulties in governing the state of Ohio.

- 18.01 What were some problems with earlier versions of Ohio's constitutions?

- 18.02 What changes have been made in updated versions of the Ohio Constitutions? (compare 1802, 1851, and 1912)

Please use articles, videos (if you can find any), and websites to answer these questions and then ultimately complete a research form to indicate that you have indeed discovered the information required by the Ohio Department of Education

Don't forget to check out my website to find links, videos, and/or articles to help learn about the Ohio Constitution.
